

RETIRED ACCESSORIES LIST

Items on this retired accessories list will be available at regular price *while supplies* last or through January 18, whichever comes first.

Products are marked as available or unavailable. If an item is unavailable, our supply is exhausted and **the item can no longer be ordered**. This list will be updated every day through January 18.

Visit this page for the most current list before taking any customer orders or holding any workshops. If your customers want to order an item, ask them to choose a backup item in case that item is no longer available once you place their orders.

Keep in mind that the status of any retiring product may change quickly based on demand.

With most catalogs, some accessories are completely retired while others are redesigned or reconfigured for the new catalog. Sometimes popular items are "retired" in their current packaging or style to come back with improved packaging or added product features. This year, no accessories are being reconfigured.

We hope this explanation helps. Make sure your customers know that if they want the products as shown in the *Fall-Winter 2008 Idea Book & Catalog*, now is the time to purchase them.

Last updated January 14, 8:20am (MT)

Item #	Product Description	Availability
